

Rapid Screenings Results When You Need Them

Want to run a small event attendee list through WealthEngine’s 30+ data sources? Need the results by tomorrow? Now you can. Due to increased demand for regular constituency screening throughout the year, WealthEngine has introduced our OnDemand Screening tool. Now you can make screening part of your everyday fundraising process and do frequency based screening on your prospects and donors when you want to. The process is fast, seamless, and more importantly results are screened and returned when you need them. Use OnDemand to submit as few as 100 or as many as 4,000 records at once and receive the results within your FindWealth OnlineSM History Section in less than two hours.

Benefits of using OnDemand Screening include:

- Screen actionable batches of data across more than 30+ data sources
- Receive results within 2 hours posted in your History Section
- Segment and prioritize your best prospects using WealthEngine’s “Propensity to Give” (P2G™) scores
- Make the right ask amount of the right people
- Easily export results into Excel or CSV from your History Section
- Data can be integrated directly into your Donor Management System (DMS)

Easily upload your results to us online in your FindWealth OnlineSM account by using our Express Batch Upload and receive email notification once the results have been posted to your History Section. Simply match your input file field names to those provided in either our short or long templates for WebExpress, or ask us to create a custom template.

Practical uses of OnDemand Screening include screenings of:

- Small batches of alumni or reunion classes
- New parent screenings
- Special event attendees
- RSVP lists prior to your event
- Marketing lists
- Patients
- Membership lists

Contact us today at (800) 933-4446 or marketing@wealthengine.com for more information. Simply put, prospect research is what we do. With nearly 20 years of experience and over 2000 clients, we can deliver an immediate, results-oriented prospect research solution that supports your fundraising goals.
