

Unlock your potential to engage your customers with WE Contact,
WE's new source for customer contact data.

Delivering the Power to Engage

WE Contact provides FindWealth™ 8 users with access to business and/or personal contact information for over 100 million individuals across the US.

Now your data, when matched to records with WE Contact information, includes:

- » Business Name
- » Business Phone Number
- » Business Email Address
- » Personal Email Address

WE Contact data is accessible via search in FindWealth 8.

Unparalleled Convenience

With the power of WE Contact, your customer contact information is seamlessly added to your profile searches and automatically included in your custom prospect profiles.

Data Matching

Match rates are typically 10-40% of your total records. To ensure quality and consent, WE Contact only provides email addresses for customers who want to communicate with you via email.

New Universe of Actionable Information

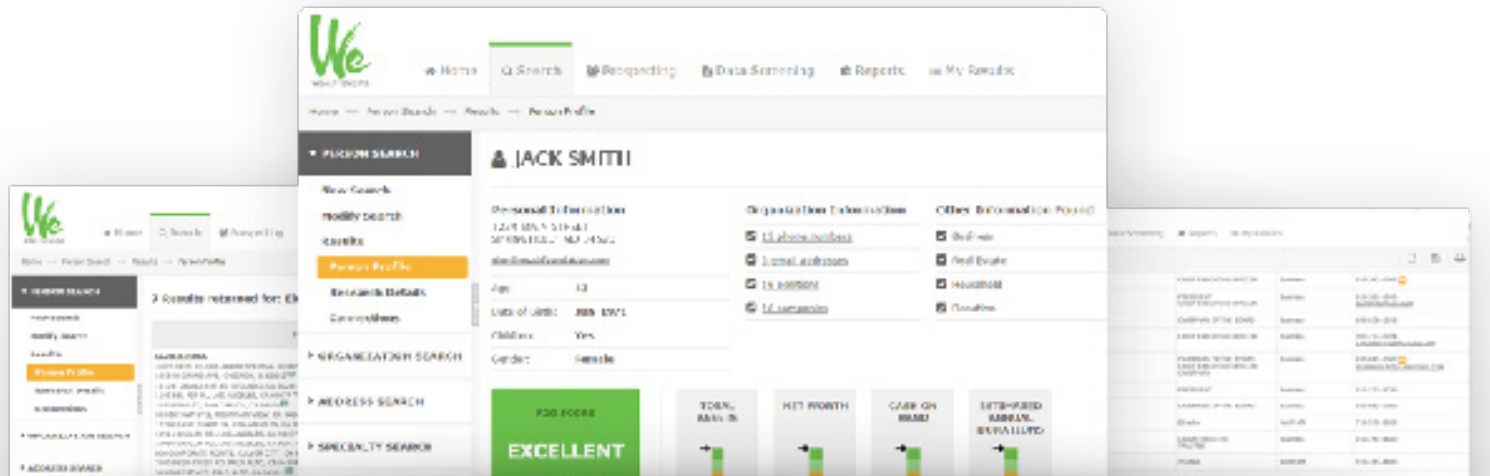

WE Contact covers approximately 40 million business phone numbers, 20 million business email addresses and over 100 million personal email addresses. In addition, personal phone numbers are available via append services.
